 0000-0002-8406-6175

## Education

2019	PhD Economics	Claremont Graduate University
2015	MA Economics	Claremont Graduate University
2014	BA Economics	Southwestern University
Minors in political science, mathematics, French, and Chinese.		
Study abroad in Shanghai, China (12FA), and Paris, France (13SP).		

## Appointments and Employment

### Research Economist · Full-time

[Analysis & Research Group](#) | National Economic Accounts Directorate  
U.S. Bureau of Economic Analysis 2021 – Present

Working on topics related to the measurement of the digital economy and intellectual property products (e.g., software, data, R&D, AI).

### Senior Scientist II · Contract | Part-time

[Pumas-AI](#) 2018 – Present

My strategic & scientific consulting work included projects across multiple therapeutic areas such as rare diseases, metabolic diseases, pediatrics, oncology, and vaccines. I conducted multiple clinical trial evaluations of the safety and efficacy of formulations to support drug development strategies at the company (e.g., study design, stop/go decisions, model development, biomarker exploration, dose selection) and regulatory processes (e.g., type-C meetings).

My work in the product development team was primarily the development of the module for bioequivalence (BE) analysis in the Pumas ecosystem. This included the design, implementation, testing, documentation, maintenance, and coordination with the other components of the ecosystem.

### Postdoctoral Research Associate · Full-time

[Social & Decision Analytics Division](#) | Biocomplexity Institute  
University of Virginia 2019 – 2021

Contributed on government projects including *Measuring the Scope & Impact of Open Source Software* and the [Skilled Technical Workforce](#) for NCSES, the [SocialSim](#) DARPA challenge, and evaluating the ACPD [Arlington Restaurant Initiative](#). In addition, I liaised with the computing resources team to facilitate the use of high-performance computing and best practices. Served as project lead and instructor for the Data Science for the Public Good Young Scholars Program ([DSPG](#)).

---

### Data Scientist · Contract | Full-time

Residential Energy and Water Intelligence (Res-Intel)

2016 – 2018

Developed a [residential benchmarking](#) platform and conducted a Southern California Edison commissioned [program evaluation](#) of the California Advanced Home Program (CAHP).

### Research Fellow · Seasonal | Full-time

AEA Summer Training and Scholarship Program (AEASP)

2016

Served as a research fellows for the advanced research methods course taught by Dr. Lisa D. Cook.

### Research Fellow · Part-time

Center for Neuroeconomics Studies (CNS)

2014 – 2016

Worked on diverse aspects of performing neuroeconomic studies including study design, recruitment, running experiments, and analysis. These included handling scheduling, managing lab supplies, and supervising economic choice experiments. These experiments included administering drugs as well as collecting and analyzing data such as blood work, electrodermal activity (EDA/GSR), electroencephalography (EEG), electrocardiography (ECG), and eye-tracking.

## Dissertation

J. Bayoán Santiago Calderón. 2019. “On Cluster Robust Models.” PhD diss., Claremont Graduate University. DOI: [10.5642/cguetd/132](https://doi.org/10.5642/cguetd/132)
